The Israeli military says it only targets militants and tries to avoid harming civilians. It blames Hamas for civilian deaths in the 19-month-old war because the militants are embedded in densely populated areas. There was no immediate Israeli comment on the latest strikes.

The war began when Hamas-led militants attacked southern Israel on Oct. 7, 2023, killing some 1,200 people, mostly civilians, and taking 251 hostage. Fifty-nine hostages are still inside Gaza, around a third of them believed to be alive, after most of the rest were released in ceasefire agreements or other deals.

Israel's offensive has killed over 52,000 Palestinians, mostly women and children, according to Gaza's Health Ministry, which does not say how many of the dead were combatants or civilians. The offensive has destroyed vast areas of the territory and displaced some 90% of its population of around 2 million.
